

Don't Bug Me!

All Natural Insect Repellent

Introducing an innovative,
new insect repellent.

Don't Bug Me! Patch

All Natural Insect Repellent Transdermal Patch

- No Deet
- Safe for Children
- Protects against biting insects for up to 36 hours
- Waterproof
- No messy sprays, lotions or towelettes
- Patent pending all natural formula
- Simple application – just apply a patch to your skin
- Effective

Protects against:

Mosquitoes/gnats/no seeums/ticks/chiggers/sand fleas

According to “Kline’s Consumer Markets for Pesticides and Fertilizers USA” market analysis:

- Sale of insect repellent has increased over 30% since 2001
- Consumers are putting more emphasis on prevention than killing mosquitoes and other pests
- Companies and consumers are looking for more environmentally friendly alternatives
- People say they would prefer a product with low toxicity, especially if they are going to use it on their children

Mancer Cyr, Senior Associate in Kline’s Specialty Pesticides Consulting Practice says, “If someone can develop a viable alternative to DEET that is comparable in price and potency, there could be a great deal of opportunity there.”

Don't Bug Me! Patch is that product.
